Dear Friends,

Because the world can forget so easily the desperate plight of the American prisoners and the missing, Colorado Springs for POWs has produced a Christmas Seal to especially honor them during the approaching holiday season. A local artist, John Manson, donated his talent in designing the seal. We are hoping this commemorative stamp will be used both nationally and internationally.

Won't you please place your order today and begin to use the seal immediately? We would especially like to see the POW/MIA seal used on all mail going out of the United States. Imagine the impact it could have as it is handled in foreign lands because it depicts eight long years of suffering by our gallant men.

The proceeds from the seal will be used to cover our expenses in producing it and a great percentage will be sent to the National League of Families of American Prisoners and Missing in Southeast Asia to help with their national efforts on behalf of the POW/MIA.

The minimum out-of-state order we can accept is \$2.00, and for that amount you will receive 200 seals. Just a penny per stamp! There are 50 seals per sheet. No mail orders can be honored after December 10. Kindly send your check with your order and we will mail your seals the same day the order is received. Make your check payable to Colorado Springs for POWs.

Thank you for helping to honor the POW/MIA as they endure their 8th Christmas of loneliness and despair.

Sincerely,

MIA Wife
